

Quality Engineer_(m/f/d)

Your chance to shape quality - Become our QA expert!

Thies CLIMA, with over 75 years of tradition in meteorological precision measurement technology, is looking for a motivated Quality Assurance Engineer (m/f/d). In close cooperation with the internal teams, you will ensure our high quality standards for suppliers and customers. Our company offers a future-oriented environment for your commitment with innovative measuring instruments, especially in the fields of renewable energies, meteorology and building control technology.

We offer:

- A permanent employment contract
- Fair and performance-based compensation
- 30 days vacation
- Flexitime account
- Holiday and Christmas bonus
- Stable environment
- Opportunities for development

Your responsibilities:

- Conduct and support internal and external audits
- Qualification of suppliers
- Support and evaluate production start-ups
- Ensure defined, documented, repeatable and traceable production processes
- Analyzing, documenting and tracking complaints
- Monitor data quality and consistency in quality assurance and related systems and documents
- Collect and evaluate KPIs and other quality indicators

Your qualifications:

- Completed technical studies (university/university of applied sciences) in a STEM subject such as mechanical engineering, process engineering or electrical engineering
- At least 3 years of professional experience in quality-relevant positions, e.g. in quality management or process engineering
- Familiarity with common quality methods and zero-defect concepts in particular
- Fluent German and good written and spoken English skills
- Independent, goal-oriented way of working and flexibility
- High level of accuracy and excellent communication skills
- Reliability, ability to work in a team and willingness to take on new tasks
- Confident handling of common MS Office applications

We would like to get to know you and look forward to hearing from you! Please send your complete application (cover letter, resume, certificates) as a PDF file by e-mail to: janina.flaucher@thiesclima.com with the subject line "APPLICATION Quality Engineer (m/f/d)"
