

# Recording charts for Hygro-Thermograph

## Specification

|                        |                          |
|------------------------|--------------------------|
| Part number: 205131    |                          |
| Temperature            |                          |
| Measuring range        | 0 ... +40 °C             |
| Rel. Humidity          |                          |
| Meas. element          | “K” ( synthetic fibers ) |
| General                |                          |
| Period of registration | 1 day                    |
| Amount                 | 100 sheets per packet    |
